Another Contingent

Feeling in Ottawa That More
Canadians May Be Sent to
Africa.

Government's Offer to the Mother
Country Still Holds
Good.

Request That Day Labor Be
Employed on Dominion
Public Buildings.

From Our Own Correspondent.

Ottawa, Ont., Nov. 5.—There have
been all sorts of rumors current in the
city today with reference to the de-
parture of another Canadian contingent
to South Africa. Public sentiment is
strongly in favor of the government
showing its good will towards the Mo-
ther Country at this time by offering an-
other mounted force. While all the
Australian colonies have contingents in
the field, Canada is unrepresented ex-
cept by a little band of scouts under
Major Charlie Ross, first organized by
the late Lord Dufferin. The thou-
sand men who joined the South African
Contingent have lost their identity as
Canadians, as they are Imperial troops
absolutely. It was stated tonight that
no direct offer of another contingent had
been made to the home authorities, but
an intimation was conveyed to them
that the offer of last May still holds
good.

The public departments are busily en-
gaged in scrutinizing the accounts incur-
red in connection with the visit of the
Duke and Duchess of Cornwall and
York. Parliament only voted \$120,000
for this purpose last session, but the
total expense incurred was nearly \$300,-
000.

A deputation of local labor men waited
on Mr. Tarte this morning and asked
him to erect the royal mint, geological
museum and other proposed buildings
in Ottawa by day labor. Mr. Tarte
said the question was not a new one.
Personally he was a warm advocate of
day labor. Under a proper foreman it

MISS STONE STILL ALIVE

U. S. Consul General Reports
Brigands' Prisoners Are
Well Treated.

Sofia, Bulgaria, Nov. 5.—United States
Consul General Dickinson, of Constanc-
tinople, returned here from Samakav
today. He authorizes the statement that
he is satisfied that Miss Ellen M. Stone
and her companion, Miss Tsilka, are
alive and well treated. Mr. Dickinson's
return is not due to any interruption in
the exchange of communications with
the brigands, which are still going on.

It has been ascertained that the band
leader, to kidnap Mr. House, mis-
sionary at Salonika, at the same time as
Miss Stone, but the design failed. Two
days before Miss Stone was abducted,
brigands fired five shots at a gendarme
near Kassel, and the local authorities
knowing that brigands were in the
neighborhood should have supplied an
escort.

London, Nov. 6.—It is stated here, says
the Sofia correspondent of the Daily
Telegraph, that the brigands will not
abate the ransom originally demanded.
In Macedonia circles it is maintained
that Miss Stone will be murdered on
that territory in order to remove all
traces of the original Macedonian insti-
gators of the capture.

OFFICIAL CHANGE.

New Government Officer for Lady-
Smith—An Assault Case.

Nanaimo, B. C., Nov. 5.—(Special).—
A change has been made in the gov-
ernment office at Lady Smith. Owing to
the resignation of A. McGregor, Geo.
Thomson, an assistant in office here, has
received the appointment. The office at
Nanaimo will for the time be conducted
without an assistant.

At Extension last night a dispute con-
cerning settlement of accounts between
two men who lived together resulted in
one of them Teta Tattah abusing the

threatened to kill him. This afternoon
Provincial Officer McLeod drove out
and arrested the assailant. He will
come up for hearing tomorrow.

ADMIRAL CAILLARD REPORTS.

States That he Has Seized Turkish
Ports.

Paris, Nov. 5.—The following is a
despatch received from Admiral Cail-
lard, Mitylene, November 5, 11:40 a.
m.: "Armored division arrived at Mity-
lene."

The despatch does not mention any
incident attending the landing, but it
seems certain that the French command-
er carried out his instructions, which
were to occupy three ports of the island,
and to seize the customs. One cruiser
and three torpedo catchers got separated
from the squadron owing to the speed
of the latter. The despatch boat Moutte,
which had joined the squadron, was sent
to meet them, and to accompany them
to Mitylene.

Seranton, Pa., Nov. 5.—A northbound
car on the Seranton Railway company,
while going from this city to Carbon-
dale today was dynamited at the upper
end of Mayfield and hurled crosswise off
the tracks. Every window and the front
platform was shattered. The motorman,
non-union man, was hurled into the
street and severely bruised. The con-
ductor escaped unhurt. This is the first
outrage of the kind in connection with
the strike of the company's employees.

SCHLEY INQUIRY.

Counsel Have Not Yet Finished Their
Addresses.

Washington, D. C., Nov. 5.—The time
of the court in the Schley inquiry was
entirely devoted today to hearing argu-
ments in the case of Admiral Schley.
Mr. Hanna finished his argument in be-
half of the department, which had been
heard yesterday, and Capt. James Park-
er did not conclude his presentation of
the charge of Admiral Schley. Capt.
Parker will conclude his speech tomor-
row when Mr. Rayner will begin.

Elections In the U. S.

Tammany Beaten in the Fight
For Mayoralty of New
York.

More Interest Taken in It Than
Polling in Other
Places.

Reports From Other States of
the Results of the
Polls.

New York, Nov. 5.—Seth Low, former
president of Columbia university, and
four years ago the citizens' Union can-
didate for the mayor of Greater New
York, was today elected the second may-
or of Greater New York, by a plurality
ranging anywhere from thirty to forty
thousand, defeating Edward Sheppard
of Brooklyn, the Democratic nominee.
The campaign was an exciting one and
the vote, though somewhat less than the
presidential election a year ago, was the
largest ever polled in a municipal con-
test in this country. In addition to the
canvass for mayor, public interest large-
ly centred in the nomination by the
fusionists of William Travers Jerome,
for district attorney, and Mayor Robert
A. VanWick by the Democrats for Jus-
tice of the Supreme court. Both the
candidates for district attorney and
justice of the Supreme court were voted
for only on the territory contained in
New York county. Returns received up
to 11 p.m. indicate that Jerome has been
elected by a comfortable plurality, and
that Mayor VanWick has been defeated.
The latter ran behind his ticket
from 15,000 to 20,000. Returns also in-
dicate the complete triumph of the
Greater New York fusion ticket, Charles
Vincent Pomes, the nominee of the
Citizens' Union and the Republicans, de-
feating Geo. van Hoesen, the Democrac-
ic nominee for president of the board
of aldermen. E. M. Grout, for the past
four years Democratic president of the
borough of Brooklyn, now the fusion-
ist nominee for comptroller, has also de-
feated W. W. Ladd, Democrat.

Reports received from the various sec-
tions of New York state show that the
Republicans will retain control of the
lower house of the state legislature.
In the various municipal contests re-
ported from up the state, the most in-
teresting elections noted were those of
Albany, Troy, Rochester, Syracuse and
Buffalo. The city of Albany will be
carried by the Republicans.

The election in Troy was lively, a
number of arrests for illegal voting be-
ing made. Daniel E. Conway (fusion)
candidate for mayor, was easily elected.
In Buffalo the entire Republican city
and county ticket was elected. Erasmus
C. Knight, the state comptroller being
chosen mayor.

The result in Rochester was close, but
Mayor Warner's friends claim his elec-
tion over the Republican candidate.

In Syracuse Mayor McGuire, for a
number of years past the Democratic
mayor of the city, was defeated by
Kline, the Republican nominee.

IOWA.

Des Moines, Ia., Nov. 5.—Returns
from this state are coming in very slow-
ly, the polls having been held open until
7 o'clock in most precincts. Figures
from 10 precincts show a Republican
vote of 102, Democratic, 741. The
same precincts two years ago gave the
Republicans 1,233, Democrats, 921.
This shows a net Republican gain of
147, which, if continued in the same ra-
tio, will make about 31,000 net Republi-
can gain in the state, and give Cum-
mings for governor a plurality of 87,000.

NEW JERSEY.

Newark, N. J., Nov. 5.—Essex county
has gone for Murphy (Rep.), for gov-
ernor by 8,000. Scattering returns coming
in show that Murphy is running ahead
of the Republican vote of three years
ago. The polls will close at 6 p.m. to-
day. On this basis the total vote in
the state would be, Murphy, 91,418;
Seymour, 82,511.

MASSACHUSETTS.

Boston, Mass., Nov. 5.—Returns from
40 cities and towns give Crane (Rep.),
8,214; Quincy (Dem.), 3,613. The same
cities last year gave Crane (Rep.), 11,-
029; Payne (Dem.), 4,738. This shows
a falling off in each party of about 25
per cent, and indicates that the Repub-
licans have carried the state by 70,000.

KENTUCKY.

Louisville, Ky., Nov. 5.—Chas. F.
Grainger, Democrat, is elected Mayor
of Louisville by over 5,000. Returns
and reports from all over the state in-
dicate corresponding gains for the
Democrats.

Elections In U. S.

(Continued from Page One.)

NEBRASKA.

Omaha, Neb., Nov. 5.—Reports from the state indicate a Republican majority on the state ticket of 3,000 to 5,000.

OHIO.

Cincinnati, Ohio, Nov. 5.—Senator Foraker claims the election of Governor Nash (Republican) by 59,000 plurality, with both houses of legislature safely Republican. Hamilton county is said to be Republican by more than 10,000.

PENNSYLVANIA.

Philadelphia, Pa., Nov. 5.—Returns from the state indicate the election of Frank G. Harris, Republican, for state treasurer, and William Porter, Republican, for Supreme court judge, by pluralities. The election of Harris, Republican, had 110,558 plurality. The reduction of the Republican plurality is due in part to the light vote cast.

UTAH.

Salt Lake, Utah, Nov. 5.—Returns from 33 voting districts of Salt Lake indicate the election of Thompson, Republican, for mayor, over Ladd, Democrat, by about 500 plurality.

MARYLAND.

Baltimore, Md., Nov. 5.—Late returns show large Republican gains in the city, and it is asserted that the Republicans have carried it by 5,000. They also claim all the legislative districts in Baltimore city.

RHODE ISLAND.

Providence, R. I., Nov. 5.—With scarcely half the districts in the state heard from, the Republican plurality for the state ticket promises to run well over 6,000. This is a net loss of 2,500 from last year, due to the light vote. Seventy districts out of 180 give Gregory, Republican, 10,133; Garvin, Democrat, 6,172. The general assembly will be Republican strongly. Pawtucket and Woonsocket have elected Democratic mayors as has also Providence.

VIRGINIA.

Richmond, Va., Nov. 5.—Indications are that the Democratic state ticket is elected by 20,000 or more.

CALIFORNIA.

San Francisco, Nov. 5.—Incomplete returns from today's municipal election indicate that Eugene B. Schmidt, the Union Labor nominee for mayor, is elected by a plurality of at least 3,000.

SOUTH DAKOTA.

Sour Falls, S. D., Nov. 5.—At midnight the indications are that the Republicans elected all eight judges, but the Democrats claim the election of Bennett in the third and McGee in the seventh districts.

CROKER ABANDONS THE THRONES.

New York, Nov. 5.—Mr. Croker, Maurice Undermyer and Senator T. D. Sullivan were together at dinner to-night, and it is said on good authority that a little later Mr. Croker asked Senator Sullivan whom he desired as leader. Senator Sullivan answered that John F. Carroll would be pleasing to him. Then and there Richard Croker abdicated his leadership of Tammany Hall and turned it over to John F. Carroll.

TOOK THE GUNS.

Boers Used Ambulance to Cover Captured Cannon.

London, Nov. 5.—Lord Kitchener, in a report to the war office, under the date of November 4, giving further details of the recent engagement near Brakenburg, Eastern Transvaal, between Col. Benson's column and the Boers, says: "The Boers were unable to remove the guns they captured until a British ambulance went on, when, under cover of the ambulance, the burghers carried them off." "The Boer losses were undoubtedly heavy, but no correct estimate of them is obtainable. Commandant Opperman was killed and Chris Botha was wounded. The Boers are reported to have been badly hit by the British wounded." Lord Kitchener further reports that Cape Colony to the eastward of the Western railway is cleared of Boers with the exception of the Fouches-Mylburg-Wessels commando, of 400 men, with which Gen. French is dealing.

STATION BURNED.

Fire on the Line of the Canadian Northern.

Winnipeg, Man., Nov. 5.—(Special.)—Mariapolis station, on the Canadian Northern line was destroyed by fire with contents this morning, all the agent's records were burning. The fire broke out at 10 o'clock and was extinguished by 10 o'clock yesterday for the lacrosse championship of the Northwest Territories.

GUILTY OF MANSLAUGHTER.

Christian Scientist Failed to Provide Medical Aid For Child.

Toronto, Nov. 5.—(Special.)—The jury in the Lewis manslaughter case involving a question of Christian Science methods of cure instead of medical aid, this morning found James H. Lewis guilty of manslaughter in failing to procure a doctor for his boy who was ill with diphtheria. A reserved case for the High Court was granted on the question whether medical aid was a necessity of life.

SECRET TREATY.

Underhand Dealings Reported Between Chili and Colombia.

London, Nov. 5.—It is reported that Colombia has signed a secret treaty with Chili, undertaking to support Chili at the pan-American congress in Mexico City, says the Buenos Ayres correspondent of the Times. Chili possessing supply Colombia with munitions of war against Venezuela. It is also stated that Chili had previously offered warships to Ecuador.

FISHERMEN'S CASES.

Rogers Admitted to Bail by Chief Justice McColl.

Vancouver, Nov. 5.—(Special.)—Bail was granted this morning in the Rogers kidnapping case by Chief Justice McColl. The application was made in chambers. Mr. Macdonell, for the prisoner, stated the ground work of all the charges, that of kidnapping, was disposed of, the prisoner being acquitted; that there were a number of other charges much less serious. One of intimidation had been tried in the West and the jury disagreed, and Rogers had already been in jail nearly four months. Mr. Bowser stated in reply that there were 12 counts still against the prisoner and that there was still a charge of kidnapping hanging over the prisoner. The Chief Justice said that under the circumstances he would grant bail, the prisoner in \$1,000 and one or more sureties for \$1,000.

THE MANUFACTURERS.

President Ellis Delivers Address at the Annual Meeting.

Montreal, Nov. 5.—At the afternoon session of the Canada Manufacturers' association reports were received from different committees on the year's work. An open meeting was held at the hotel, when President Ellis delivered his annual address. The most striking paragraphs in it were devoted to British preference and reciprocity. Formerly Mr. Ellis was disposed to discourage reciprocity, if it gained any advantage for the Canadian farmer, but he pointed out Canada's first duty was to be Canadian.

The report of William Whyte, of the C. P. R., on his recent trip to Russia, was read by Secretary Russell in Mr. Whyte's absence. It was decided to describe of the country. Mr. James Cunningham contributed a paper on South African trade, and C. P. Alexander one on Canadian manufacturers from a British view.

SHINGLE MILLS.

A Great Impetus in the Business at Vancouver.

Vancouver, Nov. 5.—(Special.)—Good orders and satisfactory profits have caused a boom in the saw mill and shingle business in and about Vancouver. A short time ago it was stated that there were not enough shingle mills to supply the demand. If the present rush to put up shingle mills continues much longer, there will be the danger of not being enough orders to go round. The following are a few of the mills just completed or under construction: Two Americans from the states of Washington and Wisconsin, respectively, are erecting a very large shingle mill near the cement works. Two more sons of Mr. W. L. Tait, whose name is synonymous with the shingle industry, are embarking in the business, one son having just completed a new mill near the cement works, while another son is erecting a mill close by, which makes the third of Mr. Tait's sons manufacturing shingles. The Imperial Lumber company has just erected a shingle mill west of Granville street, the most modern machinery being installed. At Hastings another firm has been erecting a shingle mill, which will contain the latest machinery.

Cedar Cove has grown into a bee-hive of industry. Tiffon's new saw mill has been completed. Heen's saw mill and saw business, which a few years ago was contained in the basement room, is now too big for the entire building. The shingle mill capacity has been tripled and the new big saw mill is rapidly approaching completion, and Messrs. Deans & Son intend going extensively into the export business, so that they will add one more mill to the export mills of the province. The other two established mills in the Cedar Cove are McNair's and Kirkpatrick's. The Fraser River Lumber company has also just erected a big shingle mill on the river.

Emperor William has conferred upon Burg-Gen. Koch, the noted physician, the rank of major-general.

Trusts and combinations do not affect Jesse Moore whiskey. Its fame is established. Its quality is the finest, and it is always the best.

Hon. Wm. Harty, ex-commissioner of public works, and a minister without a portfolio in the Ontario cabinet, is anxious to retire from political life, and has announced that he will not seek re-nomination as Liberal candidate in Kingston.

They are likely to be despondent and it is not unusual to find them borrowing trouble as if they hadn't enough already.

The fact is their kidneys are weak, either naturally or because of sickness, exposure, worry or other influences.

"I was taken ill with a kidney trouble," writes Mrs. Thomas Innis, of Wallaceburg, Ont., "and became so weak I could scarcely get around. I had headache, and cramps in my stomach, and my food did not digest. I took medicine without benefit, and finally decided to try Hood's Sarsaparilla. After the first bottle I felt so much better I continued its use and six bottles made me a new woman."

EVERYBODY PLEASED.

Mason & Mason Score a Hit at the Victoria Theatre.

Victorians were treated to a little wholesome comedy last night, when Mason & Mason presented what they term the three-act farcical melange, "Ridolph and Adolph." The audience was a fair-sized one, and to say that they were pleased is putting it mildly. The fact is becoming more and more apparent that people go to the theatre now-a-days to laugh, and they have lots of opportunity while Mason & Mason and their company hold the boards. There is hardly a semblance of a plot to one farce, but one is not necessary, as it is a continual laugh from the rise to the drop of the curtain. Mason & Mason are themselves two very clever German comedians, and they introduce a lot of new comedy that is refreshing. The audience is first started with one of those mix-ups of husbands and wives, that are always amusing, and the balance of the evening is pretty well taken up in the introduction of a lot of revised specialties. In the German parade of popular comic songs Mason & Mason gave Victorians something new and made a distinct hit. Lottie Williams, who was Mrs. Smith in "Why Salted Left Home," takes a prominent part in the evening's entertainment, introducing an original medley of dances, coster songs and a pretty song, "So Much Depends on Knowing How Far a Girl Should Go," being assisted by Mason & Mason in the latter. Miss Beatrice McKenney sang very sweetly, "Lindy Loo," and with Mr. Lew H. Newcombe, gave a clever burlesque of opera. The dancing and acrobatic specialty of the Laurence sisters was another turn that helped to make up a splendid entertainment. "Peter at the Gate" was given by the entire company as a closing number.

BOXER APPOINTED.

Na Tung Gets the Foreign Office.

Pekin, Nov. 5.—Na Tung, former Boxer leader, has been appointed to the Chinese foreign office today by an edict. This appointment is considered a test of the attitude of the Chinese ministers towards the restoration of the Boxers to imperial favor. Not long ago Japan sounded the powers regarding the propriety of another protest against the Manchurian convention between Russia and Japan, and was disappointed by a lack of interest in the question on the part of the United States and Great Britain.

ASTHMA CURED FREE!

Asthmalene Brings Instant Relief and Permanent Cure In All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. Write Your Name and Address Plainly.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails. The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and torturing disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full-sized bottle."

REV. DR. MORRIS WECHSLER, Rabbi of Cong. Bnai Israel, New York, Jan. 3, 1901.

Drs. Taft Bros' Medicine Co., Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we state that Asthmalene contains no opium, morphine, chloroform or other very truly yours,

REV. DR. MORRIS WECHSLER, Avon Springs, N. Y., Feb. 1, 1901.

Dr. Taft Bros' Medicine Co., Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene for the cure of Asthma. I have suffered with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully,

O. D. PHELPS, M. D., Feb. 5, 1901.

Dr. Taft Bros' Medicine Co., Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-sized bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. REBELLIOUS YOUNGSTERS

Police Have Again to take Hand in Management of Orphans.

There was an open rebellion at the Protestant Orphans' Home last night, the little inmates of the institution taking charge and running things as they would until the arrival of Constable Handley, who had been telephoned for. He acted as judge and jury, found the children guilty, gave them a fatherly lecture and sent them to bed. After they had all got snugly tucked in under the best clothing, the officer left, and the home once more resumed its accustomed quietness.

The trouble has been brewing for some time, and occasionally there has been a lesser outbreak, such as the execution of 14 of the boys to Gordon Head a couple of weeks ago, without permission of the matron. The secret seems to be that the present matron, appointed a month ago, cannot manage the children. This came out at the meeting of the ladies' committee held on Monday last, and it was decided to make a change and a new matron was advertised for. Last evening's outbreak will probably hasten the change.

As boys will do when their superiors have no control over them, the youngsters last evening broke into the dining room and helped themselves to a lot of toys and other articles, and were having high jinks. Being unable to quiet them, the matron telephoned to Mayor Hayward, who considered that the best thing to do was to place a constable in charge until the boys could be quieted. The trouble ended with the arrival of the officer. Several times there have been outbreaks nearly as bad as that of last night.

NEW COINS.

First Issue of Edward VII. to be Made Next Year.

For the first time in many years the British mint will not issue any new money at Christmas. The first issue of the new coinage of King Edward VII. will be as early in 1902 as is possible. Before the date of issue the coinage will be heralded by a Royal proclamation describing minutely the character and appearance of each coin, without which formality none could be legally put into circulation. Most of the dies of the Victoria coinage will then be destroyed, but, of course, specimens will be preserved. The mint is already making a change usually made in connection with the special army medals, and the issue of the new coinage, both of which involve enormous labor.

As soon as the issue is made there will certainly be a tremendous rush for the new coins. Precedents show first issues from the mint in a new reign are hoarded in enormous quantities. In view of this a sufficient quantity must be issued to counteract the tendency of scarcity to inflate the face value of the coinage in its ordinary use. This may partly account for the postponement of the new issue, as the fewer Victorian coins that are in circulation the more will be the provocation to put the new money into active use. The second issue may be made within a shorter interval than usual, as it is the first issue alone that has caused the collector.

FOOTBALL DANCE.

The Tilikum At Samoa

Little Four Ton Canoe Yacht Makes Long Trip in Safety.

Messrs. Voss and Luxton Reported to Be in Good Health.

The little canoe yacht Tilikum, four tons burden, which sailed from here on May 21, and from Dodge's Cove in mid-June, for Tahiti, with Messrs. J. Voss and K. Luxton on board, has arrived safely at Apia, Samoa, and has continued her voyage thence to Sydney, Australia. The news of their voyage, is briefly given in an Associated Press letter from Apia, under date of October 12. They reached the Samoan capital two days before, having sailed to that port from Pagan Island, where they made their first call, on August 31, 56 days after leaving the Vancouver Island coast. They were only spoken once, by a sailing vessel, which hailed them when in the latitude of San Francisco. They remained at Samoa but a few hours before proceeding to Suva, en route to Sydney. Both men are in good health. No particulars are given by the Apia correspondent of the trip, and letters from the adventurers will be awaited with interest.

The Tilikum, which is a small vessel, indeed, for such a cruise, was formerly an Indian canoe. She was purchased by Clayquot by a Chemainus man, who was to have gone with Mr. Voss, and decked over and strengthened. Then the Chemainus man dropped out, and Mr. K. Luxton, a young newspaper man, who published "The Black and White" in Victoria, fell in with J. C. Voss, and started with him. From the West Coast they took a number of Indian curios and some skulls of the Coast Indians. It is the intention of Mr. Luxton to take a number of photos and secure data for articles descriptive of the trip, which is planned to circle the globe and end at London, England.

It is Mr. Luxton's first voyage, but Mr. Voss made a similar, although not so successful, journey, in the sloop Xora, in company with Harry Voss, his son, in 1888, and Capt. J. Haan, of the sealing schooner Umbagog, in 1891, on a most adventurous trip, during which they had a narrow escape from starvation, while sailing from Callao to San Diego, the voyage was abandoned, and the Xora became a fishing sloop, sailing out of that port. They encountered heavy weather and had run short of food. All hands had about given up when they were rescued by a sailing ship. Of those who made that trip, Capt. Haan and the younger Voss alone remain in Canada.

McCorl left this coast on a sailing ship for Hull, and after engaging as a sailor on the British coast and afterwards on a Cape transport, ended in the South African force, and, his time having expired a short time ago, he left for Sydney, where he may meet Capt. Voss, when the latter arrives with the Tilikum.

THE FRENCH IN CANADA.

Our Ottawa despatch yesterday said
that the increase in the French popu-
lation of the Maritime Provinces during
the last decade was 50,000. The total
increase of the population of those provinces
in that period was 12,720, and
therefore we are forced to the unwelcome
conclusion that there are at least 37,000
fewer English people in that part of the
Dominion now than in 1891, which is
not exactly a pleasing reflection, for it
shows a drain which does not augur well
for the future. A loss of over four per
cent. in ten years means a very serious
reduction in half a century, if it is
continued, more especially in view of the
peculiar circumstances attending the in-
crease of the French element.

Before discussing the matter further
we desire, in order to avoid any misun-
derstanding, to say that the Colonist is
not in sympathy with the anti-French
spirit which was so much in evidence a
year or more ago. In saying that it
does not regard with equanimity the
prospect that in fifty years the whole
Atlantic seaboard of Canada will be in
the hands of our French fellow-Canadians,
it must not be understood to ob-
ject to them as Canadians, or to ques-
tion their loyalty to our flag and institu-
tions. It only means that we do not lose
sight of the fact that the great histori-
cal struggle on this Continent has been
between the French and the Anglo-Sax-
ons, and that we do not regard it as de-
sirable that the former shall ever be
supreme on our Eastern ocean front.

In modern history there is nothing
of greater interest than the record of the
French in America. The venturesome
men who brought the fleur-de-lis and
the Cross to the St. Lawrence were in-
spired by a mighty ambition. Their hope
was to extend the power of France from
the Gulf of St. Lawrence to the Gulf of
Mexico, by way of the valley of the St.
Lawrence and that of the Mississippi.
One of the French viceroys of Canada
wrote to his sovereign, asking for a few
regiments to enable him to complete his
chain of forts from Louisbourg to what
is now New Orleans, and "drive the
spawn of the Anglo-Saxon into the sea."
The regiments were not forthcoming, for
the French king had not sufficient
breadth of vision to see the meaning of
the great plan which his courageous
viceroys and the able priests in Canada

had formed. Space does not permit
even a cursory review of the events
which culminated in existing conditions,
but we may at least say that, to one who
reads the story with discrimination, no
argument is necessary to prove that the
ambition of Frontenac is yet cherished,
though doubtless in a modified form, by
the leaders of thought among the
French-Canadians. To the French resi-
dent of the Dominion, Canada is more
than to the English-speaking citizen. He
is intensely patriotic, but it is Canada
which is the sole object of his patriotism.
He is of virile stock. He is thrifty.
While his English neighbor is content
with a little family and is spending his
money on things which are not neces-
sary, or crowding into the cities in or-
der to be able to work for some one for
wages, the Frenchman continues to rear
a numerous brood, and he sticks to the
soil. He is making the country his by
owning it.

If a line be drawn eastward from Ot-
tawa to Sydney, Cape Breton, it will in
a general way indicate the frontier of the
French advance. North of this line
will be most of the province of Quebec,
nearly one-half of the state of Maine,
most of the province of New Brunswick
and a part of the province of Nova
Scotia. Over all this extensive region
the French are greatly in the suprema-
cy, numerically and in respect to the
acreage of land in the possession of in-
dividuals. They are steadily gaining
ground. Our despatch shows at what
rate they are doing so in the Maritime
provinces, and they are progressing equal-
ly fast in the state of Maine. The sug-
gested line does not limit the extent of
their settlement. All along from the
Great Lakes to the Atlantic their out-
posts are established in Ontario, Ver-
mont, New Hampshire, Maine, New
Brunswick and Nova Scotia, and even
in New York and Massachusetts, but no
matter where they may be, they are
never too far away to be reached by the
fostering and protecting hand of the
Church, which is today just as impor-
tant an element in connection with
French colonization in America as it was
in the time of Laton and Frontenac.
If the truth must be told, the French
are the fittest people for the conditions
of life in that part of the Continent, and
as has always been the case, the fittest
are surviving.

The progress of the occupation of the
Eastern country by the French is slow
and steady. It is governed by a general
rule. A farmer buys a farm in an Eng-
lish-speaking neighborhood; in a short
time he is followed by another, and then
by another, until a little colony is estab-
lished. Almost invariably the result is
that the English-speaking people in the
neighborhood begin to sell out their
farms and they are taken up by French-
Canadians. This is not because of any
antipathy towards the latter on the part
of the former, but simply because the
two races do not as a rule get along well
side by side. In this way many Eng-
lish settlements in the Maritime Pro-
vinces and the State of Maine have be-
come almost wholly French, and the pro-
cess seems likely to go on with increased
rapidity.

ABOUT REPRESENTATION.

About the only difference between the
Times and the Colonist on redistribution
is that the latter looks at it as a practi-
cal question to be discussed in a practi-
cal way at the proper time, and the
Times thinks it a good subject to gener-
alize upon at a time when it is abso-
lutely impossible to deal with it. The
particular grievance of our contem-
porary is that Esquimaux has two members
and each of the Lillooets one. Undoubt-
edly this arrangement is not consistent
with Rossland's one member or some
other cases that can be cited. No one
ever pretended that it was. But there
are just as great inequalities in the
representation of constituencies in the Do-
minion. For example, Restigouche has
one member, although its population is
only 8,368, while St. Antoine's Ward,
Montreal, with a population of 92,063,
has only one. Our contemporary may
say that these constituencies are in dif-
ferent provinces and therefore the com-
parison is unfair. Granting this, let us
take another Quebec constituency, name-
ly, Quebec West, with its 9,241 people,
or slightly over one-tenth that of the
district of Montreal just referred to. If,
as the Times says, it is unjust to give
Esquimaux and Lillooet as much repre-
sentation as the Kootenays, although the
latter have five times as many people as
the former, what shall we say about
giving West Quebec equal representation
with St. Antoine, Montreal, which has
ten times its population? What will it
say to Victoria's two members, while
Yale-Cariboo has only one, with possibly
four times the population of this city.
Our contemporary is also quite in error in
saying that the unit of representation
for the federal House of Commons is
kept as nearly as possible to one member
to from 20,000 to 25,000 population, as
will appear from the following con-
stituencies, each electing one member:
West Assiniboia, population 9,980; Al-
gonia, population 41,856; Laprairie,
population 10,900; Laval, population
9,436; Montreal, St. Antoine, popu-
lation 92,063; Montreal, St. Anne, popu-
lation 28,122; Quebec West, population
9,241; Quebec East, population 36,470;
Restigouche, population 8,368; Son-
langes, population 9,608; Westmorland,
population 41,477; Albert population 10,
971. There must be more than one hun-
dred and fifty constituencies in Canada
whose representation shows as great an
inequality as the above. These in-
equalities are permitted to exist because
it is always felt to be a difficult matter
to deprive constituencies of representa-
tion to which they have been accus-
tomed. It is an exceedingly easy matter

HIGH FINANCE.

An interesting meeting will be held in
Chicago today, or at least it may be
very interesting to those who have to do
with the higher financial circles. Today
the reorganized "Burlington" company
elects its officers, and it is expected that
the great fight between the Morgan-
Hill interests and the Harriman inter-
ests will be brought to an amicable ad-
justment. This conflict has been on for
several months, although recently there
has been an armed truce. It arose out
of the acquisition by the Hill-Morgan
combination of the control of the Chi-
cago, Burlington & Quincy Railway. This
line has been giving its business to the
Union Pacific and its subsidiary road,
the O. R. & N. Mr. Hill, acting for
the Great Northern, acquired the con-
trol of the Chicago, Milwaukee & St.
Paul, and the general impression in rail-
way circles was that he did not propose
going any further south in his search for
territory. When he started to buy up
Burlington, Mr. Harriman, who is at the
head of the Union Pacific interests, be-
gan to feel anxious. He knew that Mr.
Hill did not want the Burlington as a
feeder for the Great Northern, and
reached the very reasonable conclusion
that he intended to divert its business to
the Northern Pacific, as was soon ap-
parent. Then the two interests set out
to buy up all the Northern Pacific stock
available. Mr. Harriman sent to Europe
and purchased what was held by the
German and Dutch bankers, while Mr.
Hill and Mr. Morgan bought everything
in sight in America. At last it became
evident that more stock had been sold
on the market than could be delivered,
and the result was the sensational rise
in Northern Pacific, which created such
excitement during the summer and led to
the raising of that stock from the lists
of the stock exchanges. The rival in-
terests had captured all the stock ob-
tainable, so that no more could be de-
livered by persons who might sell it
short. But all the stock of the com-
pany had not found its way into the
market, and when the two concerns
came to check up what they had bought,
it appeared that neither of them had a
majority, and consequently neither of
them was in a position to control the
road. This led to what we have de-
scribed as an armed truce between the
Hill-Morgan and Harriman interests.
The financial world will watch Chicago
with great interest today to see what
sort of an agreement, if any, the two
competitors arrive at.

AS TO TITLES.

Mr. James Angus raised a question
in the Colonist yesterday as to the right
of the Anglican bishops in this province
to use the names of their respective
dioceses instead of their proper sur-
names, and Mr. Lindley Crease, Lay
Secretary of the Diocese of British Co-
lumbia, writes this morning, calling at-
tention to an Act of the Legislature on
the subject. He quotes only the first
section, and it may be as well to add
that the second and third sections are
identical with the first, except that the
names of the other bishops are inserted
instead of that of the Bishop of British
Columbia. The fourth section limits the
value of real estate which the bishops
may hold, and the last section provides
that "nothing in this Act contained shall
or shall be deemed to confer any spiri-
tual or ecclesiastical rights whatever
upon the said episcopal corporations here-
by created or continued."

From this it appears that the title of
Bishop Perrin in his corporate capacity
is "Lord Bishop of British Columbia,"
and we assume that he is so described
in all documents to which he is a party
in his official capacity. There can be
no objection to his employing the signa-
ture "W. W. Columbia" if he wants to
in letters or church papers. Whether
such a signature would be valid in any
legal document may be an open question,
and now that Mr. Angus has raised it,
and Mr. Crease has emphasized it, per-
haps some one will throw some light up-
on it. The question, which applies to
all the bishops in this province, is:

1st. Do any words except the name
specified in the Act referred to satisfy
the requirements of the Act as a descrip-
tion of the episcopal corporation thereby
created? and
2nd. In such documents as marriage

certificates is the signature of a bishop
in his corporate capacity, or such con-
tract thereof as he may assume for
convenience, sufficient?

It is almost useless to attempt to dis-
cuss any question with the Times, be-
cause it so persistently misrepresents
what its contemporaries say. Thus it
said yesterday that the Colonist stated
something as "an argument against re-
distribution," notwithstanding the fact
that in connection with the statement re-
ferred to the Colonist admitted the ne-
cessity of redistribution. The com-
mitment of misrepresentation is one which
our contemporary almost constantly
pays the Colonist.

The Times wants to know why one
suicide leads to others. The question is
one that has vexed others besides our
contemporary. Suicide is certainly
"catching," just as shipwrecks, big fires
and railway accidents are.

The Sandon Paystreak says—but what
difference does it make what the San-
don Paystreak says?

"THE LORD BISHOP."

To the Editor.

Sir,—Mr. James Angus, in his com-
munication to your paper of this date, questions
the right of the Anglican Bishop of this
diocese to the title of Lord Bishop of British
Columbia. I respectfully beg to refer
your correspondent to the following extract
from the British Columbia Statutes:
"The Anglican Bishops' Corporation Act."
(44 Vict.) (Cap. 2.) A. D. 1881.

An Act to constitute the Bishops of British
Columbia, Caledonia, and New West-
minster Corporations.
25th March, 1881.

Whereas the Bishop of British Columbia
has been constituted a corporation sole by
Royal Letters Patent, and has in that ca-
pacity received, held, and conveyed real
estate.
And whereas, the Diocese of British Co-
lumbia has been divided into three sees,
the Bishopric of British Columbia, the Bis-
hopric of Caledonia, and the Bishopric of
New Westminster;

Therefore, Her Majesty, by and with the
consent of the Legislative Assembly of the
Province of British Columbia, enacts as follows:

1. The present Bishop of British Colum-
bia is, and he and his successors in office
duly elected or acknowledged by the Synod
of his Diocese, or otherwise duly appointed
and consecrated by lawful authority, Bish-
ops of British Columbia, shall be a Corpora-
tion sole with perpetual succession, retain-
ing the name of the Lord Bishop of British
Columbia as heretofore used, with power
to acquire and hold lands, and all real es-
tate conveyed to or vested in the Bishop
of British Columbia, whether in trust or
otherwise, shall be vested in the said cor-
poration sole, with power, subject to all
existing trusts, to sell, convey, lease, mort-
gage or otherwise deal with the same or
any part thereof.

MRS. HULDA JAKEMAN

Wife of President Jakeman of Elders of the Mormon Church, Salt Lake City, Utah, Recommends Lydia E. Pinkham's Vegetable Compound For Women's Periodic Pains.

"DEAR MRS. PINKHAM:—Before I knew of Lydia E. Pinkham's Vegetable Compound I dreaded the approach of the time for my menstrual period, as it would mean a couple of

days in bed with intense pain and suffering. I was under the physicians care for over a year without any relief, when my attention was called to Lydia E. Pinkham's Vegetable Compound by several of my Mormon women who had been cured through its use. I began its systematic use and improved gradually in health, and after the use of six bottles my health was completely restored, and for over two years I have had neither ache or pain. You have a truly wonderful remedy for women. Very sincerely yours, Mrs. HULDA JAKEMAN, Salt Lake City, Utah.

Just as surely as Mrs. Jakeman was cured just so surely will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

work in the same class, and as many classes must be formed in any school as are necessary to secure this end. There must be in all graded schools a general classification at least twice a year for the Intermediate and Senior Grades, and three times a year for the Junior Grade. Pupils should be transferred to a higher or lower class whenever it appears that their individual interests require it, without regard to the periodical re-organization of classes.

Special examinations held for the purpose of classifying the pupils of a Graded School shall be oral for classes below the Senior Grade, but in all classes the judgment of the teachers who have respectively taught the pupils during the preceding term, should chiefly determine the promotion lists.

The department will hold semi-annual examinations on the work of the Senior Grade, and will issue certificates of High School admission to pupils who successfully pass these examinations.

To obtain admission to a High School, candidates must obtain at least 33 1-3 per cent. on each subject, and not less than an average of 50 per cent. on all subjects.

Pupils of Public Schools in a School District having a High School, after passing a satisfactory examination and being declared eligible for promotion from a Public School to a High School, shall not be received as pupils in the Graded Schools of such district.

Semi-annual examinations for admission to a High School shall be held in the following places:

In Inspectorate No. 1—At Courtenay, Duncan and Sidney.

In Inspectorate No. 2—At Aldergrove, Ashcroft, Chilliwack, Cloverdale, Maple Ridge and Mission.

In Inspectorate No. 3—At Cranbrook, Pender, Fernie, Golden, Grand Forks, Greenwood, Kamloops, Kaslo, Kelowna, New Denver, Nicola, Revelstoke, Salmon Arm (East), and Vernon.

These Central Examinations will be

held on such dates as the inspectors of the several districts may consider most suitable, but they shall not be held more than once during the school year.

COURSE OF STUDY PRESCRIBED FOR HIGH SCHOOLS.

In July (formerly in June) an examination of each Grade of the High Schools will be held by the Education Department, and those candidates only shall be advanced to regular standing in a higher grade who have successfully passed such examination. Every candidate, to be successful, must obtain at least 33 1-3 per cent. of the marks attached to each subject of examination, and not less than an average of 50 per cent. on all subjects.

Junior, Intermediate, Senior, and Senior Academic Certificates will be issued to those students who succeed in passing the examinations prescribed for the Junior, Intermediate, Senior and Senior Academic Grades respectively. The examinations will begin on the 4th July in each year, except when the 4th falls on a Sunday, in which case the examinations will begin on the 5th.

TEACHER'S EXAMINATIONS.
The new regulations for the examination of Public School teachers, contained several new features. Of these one of the most important is the provision that the subjects of examination are made to conform with those of the different grade courses of the High Schools.

The regulations follow:
1. The designation and validity of all Teachers' certificates issued after July, 1901, shall be as follows:

(a.) Third Class certificate, valid for life, but no person shall be allowed to receive a third class certificate.

(b.) Second Class certificate, valid for life.

(c.) First Class certificate, valid for life.

(d.) Academic certificate, valid for life. Graduation from a Normal School is not compulsory in the case of candidates writing for third class certificates, but all applicants for second class, first class and Academic certificates must be graduates of the Provincial Normal School, or of other Normal Schools approved by the Council of Public Instruction.

2. All candidates must be at least 18 years of age on or before the date of the commencement of the examination. Certificates obtained in other provinces are of no value, counting as testimonials only.

3. The examination will take place simultaneously in Victoria, Nanaimo, New Westminster, Vancouver, Port Moody and Roseland, and in the other cities or towns in which, hereafter High Schools may be established. Kamloops will also continue to be an examination centre.

4. The examination will begin on the 4th of July in each year, except when the 4th falls on a Sunday, in which case the examination will begin on the 5th. All teachers employed on the regular High School staffs will be expected to give assistance as supervisors at these examinations, without extra remuneration.

5. Every candidate for examination shall send in to the Superintendent of Education, 30 days before the examination, a notice stating the place at which he will write, the class of certificate for which he is a candidate, the description of any certificate he may already possess, and the usual fee of \$8.

7.—VALUE AND DURATION OF CERTIFICATES.

(a.) A Temporary certificate, valid until the next examination of teachers, shall entitle the holder to teach temporarily in any school.

(b.) A Third Class certificate, valid for three years, shall entitle the holder to teach in any common school, or to fill the position of assistant in any graded school.

(c.) A Second Class certificate, valid for life, shall entitle the holder to teach in any position in a common school, or in a graded school.

(d.) A First Class certificate, valid for life, shall entitle the holder to teach in any position in a common school, or in a graded school.

(e.) An Academic certificate, valid for life, shall entitle the holder to teach in any position in any public school.

8.—SUBJECTS OF EXAMINATION.
(a.) For a Third Class certificate, the subjects of examination shall be the same as those for the Junior Grade Course of High Schools, with the exception that Latin is optional with candidates for Third Class teachers' certificates.

(b.) For a Second Class certificate, the subjects of examination shall be the same as those for the Intermediate Grade Course of High Schools.

(c.) For a First Class certificate, the subjects of examination shall be the same as those for the Senior Grade Course of High Schools.

(d.) For an Academic certificate, the subjects of examination shall be the same as those for the Senior Academic Course of High Schools, but all candidates who have not already passed the Senior Grade examination prescribed for High Schools, must also take Sections B, C, and D, of the Senior Grade course.

10. Every candidate to be successful must obtain at least 33 1-3 per cent. of the marks attached to each subject of examination, and not less than an average of 50 per cent. on all subjects.

11. A candidate who fails to obtain the certificate written for shall not be awarded a lower, or any certificate at that examination.

12. Bona fide students of a High School, or of any college in the province, who have passed the examination for matriculation in Arts of any University specified in section 62 of the "Public Schools Act," shall be exempt from examination in other than professional subjects of first class certificates; bona fide students of a High School or college in the province that is in affiliation with any university specified in section 62 of the "Public Schools Act," shall be exempt from examination in other than professional subjects of first class certificates; bona fide students of a High School or college in the province that is in affiliation with any university specified in said section 62, who have further passed the examination upon the first year course in Arts of such university, shall be exempt from examination in other than professional subjects of academic certificates.

Note.—To render the above more easily understood, it may be remarked that Matriculation in Arts may be substituted for the Intermediate Examination; the First Year in Arts for the Senior Examination; and the Intermediate in Arts for the Junior Academic Examination. Provided always, that the persons passing in the university examinations are bona fide students of a High School of British Columbia.

Empress of Japan and Other
Vessels Delayed by Yesterday's Blow.

New Master Arrives to Take
Charge of Delayed Bark
Senator.

The heavy southwest which was raging yesterday delayed the R. M. S. Empress of Japan, and although the Roads did not get the full fury of the blast, Capt. Fyfe considered that it was too rough to come in to the Outer wharf. The Empress arrived from Vancouver about 9 o'clock and waited in the Royal Roads until 5 p. m. when, after her Chinese passengers and the few saloon passengers who were waiting here, had been placed on board by the steamer Amur, which acted as a tender to the liner, she started for sea. There were over a hundred saloon passengers on the Empress, and her holds were well filled with freight.

The heavy weather is doubtless delaying the Northern Pacific steamer Queen Adelaide, for she is 17 days out now from Yokohama.

The Walla Walla which arrived yesterday morning from San Francisco, had a rough trip, and entering the Straits, came along before the southwest at a good speed. The San Francisco liner brought 98 passengers from the Bay City, for travel is by no means as heavy this way as on the south-bound liners. The steamer City of Puebla, which sailed about 11 p. m. last night, had one of the largest complements of passengers that has been sent south on one of the P. C. S. S. Co. steamers for many months. When she left Seattle she had 225 passengers on board, and with those who embarked at Tacoma and Victoria, she was swollen to over 300. She had a full freight. While steamship travel to California, owing to the weather, has been retarded from that State to Puget Sound ports is correspondingly light. None of the vessels bring more than half the number carried north on an ordinary summer voyage. The same craft. The Walla Walla had 17 of her passengers for Victoria, and she landed the usual amount of general merchandise for Victoria merchants.

The ship Charles Cotsworth was delayed in sailing with her cargo of 44,491 cases of salmon, owing to the weather, and she will not get away until this morning, when the ship Ballantrush will also leave the Roads for the Phoenix canyon, on the Fraser, where she is to load a full cargo of salmon for Liverpool. She will be towed to the Fraser by the tug Lorne.

The steamers Tellico and Titania remained anchored off the Outer wharf until yesterday morning, because of the fog and heavy weather. The former for Ladysmith and the latter for Nanaimo yesterday morning.

The ship Lucile, which was one of the Alaska Packing company's fleet, arrived from San Francisco yesterday, and passed on to Ladysmith in tow of the tug Pioneer to load coal for San Francisco.

SENATOR'S NEW MASTER.

Capt. Morrissey, Who Was in Charge of the
Bathdown, Assumes Command.

A new master has arrived for the bark Senator, which has been long delayed here. Capt. Morrissey has arrived to take command of the bark, and Capt. Harrison is to leave about the end of this week for his home in Liverpool. The Senator, which has loaded all the cargo that she will take on her voyage home, is expected to sail from Esquimalt for Liverpool about the beginning of next week. She will have about two-thirds of the cargo, which she completed loading at Chemulus in April last and which has been carried as far as Hilo, H. L., on the way to Liverpool.

Capt. Morrissey, the new master of the Senator, is known to Victorians, for he came to this port in the steamer Tellico, bringing the cargo of rails for the Victoria and Sidney railway, which were discharged at Sidney, and while the bathdown was lying at that port occurred on board, which gave the ship and her master a certain amount of notoriety at the time. She had a crew consisting of 50 men, and during a squall on board the vessel she lay at Sidney, one of the crew was stabbed by a shipmate. The sailor died, and the assailant was arrested and tried here. He was given a long term of imprisonment, and is still in jail.

The ship Rathdown has since been lost. She was one of the fleet which were posted as lost after the storms of last winter. The Rathdown sailed from Victoria for Portland and was never heard of after sailing from the Japanese port. H. H. Hurst of this city, who was one of the officers on the trip out from England to Yokohama, and left her at the Japanese port before she started on her ill-fated voyage.

LIQUOR AND INDIANS.

Sailor Sells Liquor and Master Summoned
For Allowing the Trade.

When the sealing schooner Umbrina started her cruise, she was shipping her Indian crew at Clayoquot. It was alleged by the residents at Clayoquot that liquor was being sold to the Indians by a sailor, a German, who was among the crew, and it was understood that efforts would be made by the provincial police constable at Clayoquot to arrest the alleged offender when the schooner returned to Clayoquot from the Behring sea. When she returned, however, the schooner landed her Indian crew at Clayoquot, and since her return to Victoria the sailor who is alleged to have sold the liquor has vanished. Now Capt. Harn of the Umbrina, has been summoned in connection with the matter, and he will leave for Clayoquot on the next trip of the schooner, to answer to the charge of selling liquor to be sold from his schooner. The liquor seller cannot be found, and it is said, there is evidence to prove that, what offence there was in this connection was done without cognizance of the schooner's master.

An amusing incident occurred on another schooner at Kyaukse in connection with an allegation made against one of the schooner's Chinese cooks, of selling liquor to Indians. The Pendine and Aletis have masters who are brothers, and the constable went to the wrong schooner, and arrested the wrong Chinaman. Meanwhile the other schooner had gone.

MARINE NOTES.

The schooner Geo. W. Prescott, which arrived here from Port Townsend on Sunday last, to seek registration, as was told in the Colonist yesterday, is still here, and Capt. Douglas is in Seattle making the necessary arrangements to show a clear title to the schooner, in which he owns a half interest. The other shares in the schooner are held by a Seattle man, and by two whalers, now in the Arctic.

D. G. S. Oudra left for Cape Reale and Carmanah lights, on the West coast, yesterday afternoon.

Attendance At School

Largest Number of Pupils in
the History of the
City.

But Average Attendance not
as Good as it Should
Be.

The attendance at the public schools of the city at the highest point in the history of the schools during the month of October just closed. The total number of pupils attending was 2,726; the daily average, 2,403.30, and the attendance percentage, 88.16. The figures for September were: Number present, 2,605; daily average, 2,307.98, and attendance percentage, 89.97. The falling off in the attendance percentage during October is due to the demoralizing effect of the celebration during the early part of the month. The difference between the number present during the month and the actual daily attendance means that an average of 300 children were absent every school day during the month, and most of these might just as well have been at school.

The attendance by schools follows:

No.	Daily Attend.	Present.	Avg. P.C.
High School	168	150.90	89.82
Boys' School	420	368.08	87.78
Girls' School	1,138	988.92	86.89
South Park	419	374.81	89.45
North Ward	436	374.97	85.77
Victoria West	396	298.74	75.42
Spring Ridge	178	178.12	88.83
Hillside Avenue	153	133.96	87.55
Kingsford Street	122	108.41	88.86
Rock Bay	86	76.59	89.17

2727 2403.30 88.16

The following are the divisions in which the attendance was 90 per cent or more: High School—Div. 2, 90.37 per cent; Div. 4, 90.00 per cent; Div. 5, 91.75 per cent. Boys' School—Div. 3, 91.83 per cent. Girls' School—Div. 2, 92.45 per cent; Div. 3, 91.44 per cent. South Park—Div. 1, 92.96 per cent; Div. 2, 92.96 per cent; Div. 3, 92.96 per cent. North Ward—Div. 3, 92.79 per cent; Div. 5, 90.00 per cent. Victoria West—Div. 1, 90.01 per cent; Div. 3, 90.04 per cent. Spring Ridge—Div. 3, 91.6 per cent. Hillside Avenue—Div. 3, 91.6 per cent. Rock Bay—Div. 2, 91.56 per cent.

Meteorological Office.
Victoria, Nov. 5—8 a. m.

SYNOPSIS.
Since yesterday an extensive storm area has crossed this province, chiefly south and west. It has caused a south and west gale on the coast and the Straits of Fuca and Georgia. As high barometric pressure is now spreading inland over the Pacific slope, a brief fair interval may occur in this vicinity. Rain has fallen between the ranges, and snow is setting in east of the Rockies.

PREPARING FOR WORK.
V. T. R. Engineers Taking Levels—
Rails Ordered.

Victoria Terminal railway engineers were yesterday taking levels and laying out section work on the connecting line between the V. & S. tracks, and the market building.

A despatch was sent yesterday to a steel firm in the United States ordering a consignment of 65-pound steel rails to be rushed through as soon as possible, so that they may arrive by the morning train. The rails are to be in addition to this large order for rails has been cabled to England. The latter will be brought round the Horn by sailing ship.

ATLIN'S GOLD.

The Northern B. C. District Yielded Six Hundred Ounces More Than Last Year.

The Atlin district produced 600 ounces more of this season than last. That is the showing made by the Gold Commissioner's report. Royalty was paid on but 12,120 ounces as against 11,490 ounces for 1900. This does not include royalties and gold smuggled out by the owners in order to prevent paying royalty.

The more conservative estimates as to the actual output of Atlin places the amount at \$200,000. As shown by the Commissioner's records the yield by creeks was: Pine and Willow, 5,330; Spruce, 2,308; Boulder, 2,640; McKee, 1,013; Wright, 283; Graham, 103; Otter, 17; Gold Run, 31; Birch, 270; total, 12,120.

Owing to litigation and other causes several of the largest hydraulic companies in Atlin did little work last summer.

**CHARGED WITH
CRIMINAL LIBEL**

Editor of Outlook Summoned to
Appear in Police Court
Tomorrow.

An information was sworn to yesterday before Mr. Thomas Shotholt, J. C., charging David Falconer, editor of the Outlook, a weekly paper, with criminal libel. The action was taken by the City Solicitor, acting under instructions from Mayor Hayward. The information is contained in a letter published in last Saturday's issue of the Outlook under the heading "The Sewer By-law," and referring to the Mayor and Aldermen and city officials of Victoria, and the following allegations of the said city of Victoria: Robert Taylor Williams, John Kinsman, John Hall, James Stewart Yates, John Beckwith, J. C. Cameron, Thomas Frydon, Alexander Stewart and Henry Cooley and William Walter Northcott, the city assessor.

In the letter the city officials are referred to as "a gang of rascals," and the writer asks "Why should captains and senators be treated any different than other taxpayers?" To the editor the writer appeals to "Help the people just awakened to stand firm in their resolve to vote no more loans until official insolvency is checked, and all dishonest civic servants are turned down at the City hall." The writer also objects to the "WILD land tax," and "patent water closets."

The case will come up before Messrs. Thomas Shotholt and Edward Pearson, Justices of the peace on Thursday, at 2 o'clock.

ALCOHOLISM CAN BE CURED.

Rev. Father Quinlivan's Opinion.

To Whom it may concern: The good points of Mr. Dixon's new discovery for the cure of the liquor habit, in my opinion, are the following: First, it takes according to directions it completely removes all craving for liquor in the short space of three days; its use for a longer time is intended only to build up the system. Second, it leaves no bad after effects, but on the contrary, aids in every way the health of the patient, whilst freeing him from the desire for drink. Third, the patient may use it without interfering with his business or leaving his home. All other liquor cures I have yet heard of are very costly, operate slowly, are doubtful as to effects, and often impair the health and constitution of the patient. I therefore look upon the remedy as a real boon to the suffering people to all concerned, and bespeak for it here in Montreal and elsewhere every success. J. Quinlivan, S.S., pastor of St. Patrick's, Montreal.

Full particulars regarding this medicine can be obtained by writing to Mr. Dixon, No. 51 Willocks street, Toronto, Canada.

DANGEROUS EXPERIMENTS.

St. Louis, Mo., Nov. 5.—The 12th death from tetanus resulting from the treatment of diphtheria patients, with antitoxin, supplied by the city, occurred today, when Mamie Keenan succumbed. Her husband and gold smuggler, out by her death makes three victims in the Keenan family.
